A Great Reduction

The C. P. R. Reduces Freight Rates
From Fort William to
Montreal.

The C. P. R. has reduced its freight rates from twenty-eight cents to twenty cents per hundred pounds from Fort William to Montreal, and at other points east on its system where the rate heretofore has been twenty-eight cents. This is one of the most important reductions that have been made by the company for some years, and its consequences cannot fail to be beneficent and far reaching. It will enable the farmer to sell his wheat for shipment to St. John, instead of having to pay elevator charges for storage through the winter, and it will enable the Canadian miller to compete with the United States miller for the European, British and West India trade on more equal terms. That it will help the port of St. John considerably will be apparent when it is considered that the saving in freight upon one barrel of flour alone from Fort William to St. John will be sixteen cents.

CANADA'S MINISTER OF JUSTICE

Sir Oliver Mowat's Successor in the Laurier Cabinet, Hon. David Mills, with Fifty Members of Parliament Praise the Virtues of Dr. Agnew's Catharrhal Powder.

No one suffers the inconveniences of Catarrh more than the public speaker, Hon. David Mills. The coming Minister of Justice, says over his own signature that Dr. Agnew's Catharrhal Powder gave him immediate relief. People everywhere use it. John McInnis, Washa Bridge, N. S., says "Dr. Agnew's Catharrhal Powder did wonders for me." It relieves in ten minutes and permanently cures catarrh, cold in the head, sore throat and tonsillitis.

Masonic.

The usual monthly communication of Qu'Appelle Lodge No. 34, A. F. & A. M., G. R. M., took place in the Masonic Hall, Qu'Appelle Station, on Tuesday night, when the annual election of officers for the ensuing year was held, with the following results: Bro. J. P. Jones, W. M.; Bro. W. G. Vicars, S. W. (re-elected); Bro. J. Smith, J. W.; W. Bro. McCannel, treas.; Bro. F. Bell, sec.; W. Bro. Rev. J. P. Sargent, Chaplain; Bro. E. Handyside, Tyler. The installations will take place on Tuesday, the 27th inst., St. John's Day, at 8 p.m.

At the last regular communication of Indian Head Lodge of Free and Accepted Masons, the following officers were elected for the ensuing year: F. L. Mackay, W. M., re-elected; J. Hastings, S. W.; And. Dickson, J. W.; James Conn, Treas., re-elected; H. H. Campkin, Sec.; Rev. G. N. Dobie, Chaplain; Colin McLean, Tyler.

Presbytery Meeting.

The Presbytery of Regina met here yesterday. Not being one of the more important meetings of the year, the attendance was not so large as usual. The most interesting part of the business was the ordination of Mr. Adam, a young Scotchman, a graduate of St. Andrew's University and Free Church College, Edinburgh, who is to labor in the Lumsden field. Rev. A. J. McLeod preached a very able ordination sermon, Mr. Matheson addressed the minister and Mr. Robson the people. The evening session was a commemoration of Westminster Assembly. Interesting addresses were delivered by Messrs. Campbell, McLeod, Carmichael and Robson.

Injured His Foot.

On Thursday last while Mr. J. Price (of the firm of Davidson and Price) was engaged in storing away their winter supply of beef, he met with a very painful accident by the falling of a large side of beef on his foot, bruising it so bad that he had to be driven to his residence where we understand, he is receiving every attention from a special nurse, and we have every reason to believe that in a few days he will again greet his customers with that genial smile of his.—Vidette.

We are sorry to hear that our little friend, Johnny Bailey, is dangerously ill with inflammation of the lungs. We all hope to hear of his complete recovery.

Messrs. Bray and Starr are out collecting for the Methodist parsonage.

F. Barnsley, from Coyote Crossing, has been holding a series of lectures on the poet Burns. He is now on a walking tour westward.

Without a Peer—Works Miracles.

Dr. Agnew's Cure for the Heart is without a peer. This great remedy relieves instantly the most aggravated and distressing forms of heart disease. It is the surest and quickest acting formula for heart trouble known to medical science, and thousands of times has the hand of the grim destroyer been stayed by its use. If there is Palpitation, Shortness of breath, Pain in left side, Smothering Sensations, don't delay or you may be counted in the long list of those who have gone over to the great majority, because the best remedy in the world today was not promptly used.

What a man attains to seems for a little time to be the highest rung in the ladder, and during that brief period he may be content, but when he discovers that there are other rungs, still higher up, ambition gives birth to discontent, and he begins once more to climb. To climb is really man's chief end. It isn't in attainment, but in work, that man finds his real happiness, consequently it is not strange that we find men working until they break down when there is no real necessity for it.

If men only knew it, they could work to almost any extent on through middle life and into old age, if they would only take a little common sense care of their health. The trouble is that they do not take the little stitches here and there that are necessary to preserve health. They pay no attention to the signs of on-coming ill-health. A little biliousness, a little indigestion, a little loss of sleep and appetite, a little nervousness, a little headache, a little shakiness in the morning, and a little dullness all day, a little this and a little that—all these little things they neglect. Dr. Pierce's Golden Medical Discovery makes the appetite keen, digestion and assimilation perfect, the liver active, the blood pure and the nerves steady. It is the great blood-maker and flesh-builder. It is the great liver invigorator and nerve tonic. It fits a man to work and work and work. Medicine dealers sell it and have nothing else "just as good."

"I was a sufferer five or six years from indigestion," writes B. F. Holmes, of Gaffney, Spartanburg Co., S. C., "also from sore stomach and constant headache. I then used Dr. Pierce's Golden Medical Discovery and Pleasant Pellets, which in a few days gave me permanent relief."

A man or woman who neglects constipation suffers from slow poisoning. Doctor Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic. All medicine dealers sell them.

THE NEW COUNCIL.

The nomination and election, by
acclamation, of the council for 1898
took place on Monday last, Coun-
cillors Caswell and Matheson drop-
ping out. Their places have been
filled by Messrs. Harvey and Jones,
and certainly two more popular
councillors could not have been
chosen. Councillor Harvey, we
have no doubt, will ably represent
the town, while Councillor Jones
will do the same for his district.
Should anything go wrong, or should
a row arise in the council at any
time, Councillor Harvey will be
just the man to eject obstreperous
members, and if at any time the
proceeding grow dull and monoton-
ous, Councillor Jones will be found
the right man in the right place to
enliven the proceedings by giving
one of his inimitable ditties. How-
ever, we don't suppose for a moment
that there will be any occasion for
either of these gentlemen exercising
their individual fortes, but that the
meetings will be conducted as heret-
ofore, in a decent and business-like
manner. The new council, we
think, is worthy of the confidence
of the ratepayers.

While it is to be regretted that
Messrs. Caswell and Matheson
found it necessary to withdraw from
the council this year, we cannot

THE DEAF HEAR.

DR. CHASE'S CATARRH CURE
Working Wonders in Toronto.

Gave MRS. BINDON her hearing when
Specialists failed.

About 3 years ago, Mrs. Bindon, of 11
Maitland St., Toronto, was attacked with
la Grippe, which affected her hearing to
such an extent that she was completely
deaf. It was a serious affliction and she
tried many remedies and consulted a
prominent specialist on ear diseases, but
derived no benefit. By a happy circum-
stance she was led to use Dr. Chase's
Catarrh Cure, and before she had com-
pleted 3 boxes her hearing had partially
returned.

She persisted in the application of the
remedy, so confident was she of ultimate
cure, and by the time 12 boxes had been
used her hearing was completely restored.
For 3 months now she has been free from
deafness, and no emancipated sufferer was
ever more delighted than Mrs. Bindon.
On Sunday she goes to church and enjoys
the service, a thing she was unable to do
before Dr. Chase's Catarrh Cure gave her
back her hearing.

permit their doing so without men-
tioning that they well deserve the
thanks of the ratepayers for their
faithful services.

Business firms will doubtless wel-
come the announcement authorized by
the Postmaster-General that the
government has decided to permit
the utilization of the address side
of post-cards for advertisements. This
will enable post-card users to
advertise their business without
lessening the space used for their
correspondence. Doubtless, while
the novelty lasts, there will be much
decorative printing and much that
will not be decorative on the fronts
of the cards. And it is probable
that the use of postal cards will be
greatly increased, at least temporarily.
Post-cards were first issued in
Canada in 1871, and their use has
increased rapidly from 4,646,000 in
1876 to 15,409,000 in 1886, and
24,025,000 in 1895.

It is said that the miners at
Dawson City are dissatisfied with
the royalty regulations. They met
to protest against them, but hearing
that Major Walsh was on the way,
they determined to await his ar-
rival, when they would "then take
such action as might appear neces-
sary." Perhaps after Major Walsh
arrives they will discover that they
have either to take such action as
he thinks necessary or none at all,
but to walk out. The Canadian
government, and not miners' meet-
ings, will rule at Dawson City.—

Are You Going to Dye?

Successful Dyeing Can Only Be
Done With Diamond Dyes.

Thousands dye this month. The
vast majority make the work pro-
fitable and pleasant, while others
are confronted with disappointment,
despair and ruin.

The happy and successful dyers
are those who always use the Dia-
mond Dyes that produce the bright-
est, fastest and most lasting colors.
The discontented and unhappy ones
are the few that use the common
package and soap grease dyes, giv-
ing muddy and blotchy colors.

If you desire to make your cos-
tumes, dresses, capes, jackets,
blouses, etc., look like new garments
buy some fashionable dark color of
the Diamond Dyes, and you will
be astonished with the results.
Now is the time to look out the
men's and boys' light colored and
faded clothing and make them ready
for another season's wear. Fast
Diamond Black, Seal Brown, Indigo
or Navy Blue will give magnificent
shades on all garments. Insist
upon your dealer giving you the
Diamond Dyes every time you buy;
then, and only then, is success as-
sured.

To the Editor of THE PROGRESS,

SIR—I notice that a farmer in
Edgeley appears to be anxious to
see his horses which run at large on
the prairie with the remainder of
the Edgeley horses, and very often
sends his men to bring them home.
In so doing he is obliged to bring
more than his own, which breaks
up the bands and causes them to
be scattered all over the district.
This work has been carried on for
years, and if not stopped other
means will be adopted, or his name
will appear in my next communi-
cation.

THE DIVINE IDEAL

Sound Health an Essential in
Reaching the Great
Goal

Paine's Celery Compound Bes-
tows That Blessing

Its Use Means Vigorous Manhood
and Womanhood With Clear
and Active Brain.

The Great Compound Keeps the
Body in Perfect Condition

The illustrious German philoso-
pher Kant says: "There is within
every mind a divine ideal, the type
after which he was created, the germ
of a perfect person."

It is true that the nearer men
and women approach the divine
ideal the more earthly happiness
will they enjoy. In order to march
steadily onward to the great goal
set before all, men and women must
be physically sound. Purity of
heart and grand elevation of mind
will never accomplish the great vic-
tory if the body be sick and diseased.

Those who aspire to true man-
hood and womanhood are the men
and women who take the pre-
caution to banish the first symptom
of disease. That tired feeling you
experience from day to day; that
nervous headache you dread so
much; that "can't sleep" condition
that makes you weak and wretched;
the pains in side and back indicat-
ing kidney disease; the sharp
twinges of rheumatism and neural-
gia that make life a misery; that
constipated habit that is sending
poison into your life blood—all
these varied symptoms lead to dis-
ease and death unless they are
banished.

Paine's Celery Compound puts
the out-of-gear physical machinery
in perfect working condition, and
gives that greatest of all gifts—
good health. This marvellous med-
icine is a food that perfectly nour-
ishes the nerves, tissues and blood;
it brings strength and vigor to the
limbs, gives the rosy blush of health
to the pallid face, and brings clear-
ness and energy to the brain.

Paine's Celery Compound, as a
medicine for the ordinary ills of
everyday life, is as far removed
from the common pills, nervines,
bitters and sarsaparillas as the dia-
mond is from the ordinary window
glass. The people praise it, all
honest druggists speak in its favor,
and the ablest doctors prescribe it.
If you are only half enjoying life,
try what Paine's Celery will do for
you.

REGINA NOMINATIONS.

The Regina Council was elected
by acclamation, F. N. Darke, mayor,
F. Crapper and S. A. Clark elected
in the places of Mayor Eddy and
Armour, who have dropped out.

On the school board C. McCus-
ker was elected by acclamation for
Mr. Mowat's unexpired term. A
contest for the other vacancies is
now on between Sheriff Benson
Geo. Brown and S. Gray.

OBSTINATE COUGHS.

"My daughter being afflicted with
an obstinate cough which resisted the
curative effects of almost all the ad-
vertised cough remedies, and having
placed an order for 3 doz. of Chase's
Linseed and Turpentine in W. W.
Carter's Drug Store, of which I am
manager, I was induced to try a
bottle. A few doses gave relief and
the one bottle effected a cure. I can
highly recommend it as being pleas-
ant to take and efficacious."

ONE HONEST MAN.

To the publisher:

Please inform your readers that if written confidentially I will mail in a sealed envelope the plan pursued by which I was permanently restored to health and many strength after years of suffering, nervous weakness, lost vigor, unnatural discharges, and lack of development.

I have no scheme to extort money from any one. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but, thank heaven, I am now well, vigorous and sound, and anxious to make this certain means of cure known to all.

Unsolicited endorsements from my grateful friends who have been cured through my free advice:

Mr. Mulford: "I saw your notice in the paper some time ago, and wrote you about my case. After following your advice, which you so kindly gave me, I am very glad to say that I am now perfectly cured. I wish to thank you a thousand times for your kindness."

"Heaven grant you a long and prosperous life, is the wish of a cured friend."

"Judge of my surprise to receive a kind letter of so valuable advice, absolutely free."

"I is the first advertisement that I have answered that did not ask me to call at the express office and pay for medicine that I had not ordered."

"I am happy to say that you are truly an honest man, and deserve the endorsement of both pulpit and press."

In conclusion: I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. Perfect secrecy assured. Address with stamp, Mr. Wm. T. Mulford, Agents' supplies, P.O. Box 59, St. Henri, Montreal, Can.

Baby Eczema and Scald Head

Infants and young children are peculiarly subject to this terrible disorder, and if not promptly arrested it will eventually become chronic. Cure of the Complexion

It is a well-known fact that a torpid liver produces a sallow hue and a dull yellow complexion. You need not expect a clear beautiful complexion if the blood is rendered impure by a sluggish action of the liver, which cannot properly perform its function of purifying and filtering all impurities from the blood. Ladies, Dr. Chase's Kidney-Liver Pills is an invaluable remedy, for by their action on the liver and blood they promote true beauty by rendering the blood pure. This is the secret.

Not Dead, But Speechless.

Waiter—Say, pard, what wud yer say if it rained wine?
Bloky—I'd be too full for utterance.

He walked pompously into the restaurant, pre-empted an entire table to himself, and the waiter's countenance assumed one of those dead-sure-of-tip expressions that artists vainly strive to depict.

"Bill of fare, waiter."
"Yessir—bill of fare, sir. Here, sir." And wiping it carefully off with his napkin—leaving about an ounce of butter upon its hitherto immaculate surface in so doing—the waiter presented the leather-bound tablet, and assumed an air of the deepest attention.

"Canvasback duck," commences the guest, while the waiter absolutely gurgles with delight. "Canvasback duck—four dollars. Well, I guess that's all right. Let me see. Broiled red birds with caviar dressing—er—three dollars. No, somehow or other that doesn't seem to strike me either."

The waiter assumes an air of deep sympathy with the epicurean diner, and begins to murmur something about "broiled moose tongue," when the guest exclaims:

"Ah, here is the exact thing! Waiter, bring me—er—some fried liver."

And as the waiter departs kitchenward, with a look of settled melancholy upon his face, the man at the table murmurs to himself: "Twenty-five cents."

Proof of Great Fishing Ability.

"Friend Barnett is a wonderful fisherman," remarked Superintendent Curran of the N.O. and N.E. Railway, last night, speaking of the general freight and passenger agent of that road.

"I was just listening to a long account of the number of fish he caught while at Gulfport to-day. He has just returned, and he says that Spanish mackerel were biting like mad at the port, and that he caught in three hours eighty-nine of the fish, and had it not been for a severe electric storm he would have caught 1000. A bolt of lightning struck his reel, melted the metal and then followed his line into the water and exploded. Barnett says that when it exploded the concussion killed the entire school of mackerel, and that within five minutes the surface of the bay was covered with dead fish. The only one of the lot which escaped was one on the end of his line. It had swallowed the hook. The electric fluid had strangled the hook, forced the point out of its stomach, and the current, following the steel, had passed through the fish into the water, with the result stated. I always knew Barnett was a good fisherman, but I never thought he had attained a past-master's degree in the art."—New Orleans Times-Democrat.

Rose to the Emergency.

An old lawyer in Paris had instructed his client to keep every time he struck the desk with his hand, but forgot and struck the desk at the wrong moment. She promptly fell to sobbing and crying.

"What is the matter with you?" asked the judge.

"Well, he told me to cry as often as he struck the table."

"Gentlemen of the jury," cried the unabashed lawyer, "let me ask you how you can reconcile the idea of crime in conjunction with such candor and simplicity."—Illustration.

Innocent.

"My husband," said Mrs. Innocent to her neighbor, "is going to shave himself after this."

"Is that so?" said the neighbor.

"Yes; he hasn't told me so yet, but I found a shaving mug in his coat pocket this morning. He brought it home last night and his friends Tom and Jerry gave it to him, for their names are on it in gold letters."—Cincinnati Commercial-Tribune.
